

Questionnaire Scoring

Each property has its own questionnaire scoring — the points that decide how applicants rank. This is the admin view of the same rules owners set.

“ ? Screenshot: the property questionnaire scoring.

Set the rules

Set the points for each answer, the pass score, and the starting score for this property. The screen works like the owner's scoring editor.

For a full walk-through of pass scores, starting points, and per-question points, see the Owner Portal pages:

- [Pass Score & Starting Points](#)
- [Rules by Question](#)

Reset

To drop this property's changes and return to the master defaults, use the reset action. It shows **"Resetting..."** while it runs.
