

# Background Check

A background check is the screening step of your application. It confirms your history so the owner can move forward. This page shows where your report stands and what is left to do.

“ ? Screenshot: the Background Check screen.

## What we check

Your report covers four areas. Each shows its own status, so you can see what is done and what is still running.

| Check                            | Confirms                         |
|----------------------------------|----------------------------------|
| Credit History Check             | Your credit history              |
| Criminal Background Verification | Your criminal record             |
| Eviction History Review          | Your past evictions              |
| Identity Verification            | That you are who you say you are |

## Pay the one-time fee

The screening has a **Background Check Fee** — a one-time payment shown on the screen.

1. Review the fee.
2. Select **Pay** to complete it.

Once you pay, your checks can run. You can see this payment later under [Payments](#).

## Follow your progress

Come back to this screen for the property to watch each check move to complete. Any outstanding step is shown here.
