

Marketplace

The Marketplace is where you find a home. Browse the available properties, open the one you like, and start your application.

“ ? Screenshot: the Marketplace property list.

Find a property

Type in the **Search Properties** box to filter the list by name. If nothing matches, the list reads "**No Properties Found.**"

Open a property

Each property shows a card with its photo, name, and address.

- Select the card to expand it and see its **Available Units**.
- Select **View Property Site** to open the full public listing.

Apply

When you are ready, select **Apply** on the property.

If you already started an application there, the buttons change so you can carry on:

- **Continue Application** — pick up where you left off.
- **Apply For A Different Unit** — apply for another unit in the same property.
- **Withdraw Application** — cancel your application for that property.

A property you already applied to shows an "applied" badge, so you can tell at a glance.

Once you apply, you answer the property's questionnaire. See [The Questionnaire](#).
