

The Questionnaire

The questionnaire is how you pre-qualify for a home. You answer the property's questions, and the owner uses your answers to see if you are a good match. Answer honestly — your responses shape your result.

“ ? Screenshot: the questionnaire for a property.

Answer the questions

The screen shows the property at the top, then its questions below.

1. Work through the questions.
2. Save your answers as you go.

Your answers are saved, so you can leave and come back to finish.

Move forward

When your answers are in, continue from the buttons on the property card:

- **Go To Background Check** — start your screening. See [Background Check](#).
- **View Application** — open your application. This appears once you have one.

Edit later

You can reopen the questionnaire and change your answers, then save again. Your latest answers are the ones the owner sees.

Revision #3
